This morning a conference was held between representatives of the company, the board and the executive committee of the men, but no agreement could be reached. Half a dozen other conferences were subsequently held, and a final one this evening. It is understood that no concessions were made on either side, and that the company claims the right to take such men as they desire and hire whom they please. Another meeting will be held tomorrow. The men say they are prepared to stay out a month if necessary. Meetings of moulders and other trades have been called, but for what purpose cannot be learned.

THE BARBER BILL PASSES ASSEMBLY

GOES THROUGH WITHOUT ANY DEBATE.

Anti-Pass Bill Reported—Majority For Non-Concurrence—Bill Prohibiting Sale of Liquor at Soldiers' Home Killed—Bill to Provide For Wisconsin Exhibit.

Madison, March 17.—[Special]—The anti-pass bill, which has been held in committee, waiting a disposition of resolution, was reported in the assembly this morning with a majority of the committee for non-concurrence, those dissenting being Holcomb, Galaway, Willy and Thomas. The senate did not take up the anti-pass resolution today.

The assembly committee reported for killing, the bill prohibiting the sale of liquor within a mile of the soldiers' home.

The barbers' license bill passed the assembly without any debate.

The bill to take away the preference of state as creditor in insolvent banks was ordered to a third reading in the assembly by a big majority.

The assembly killed a dozen bills. In the senate a bill was introduced to provide for a Wisconsin exhibit at the Ohio Centennial.

Five minor bills were passed and a like number of assembly bills concurred in.

The bills for four additional factory inspectors went to its third reading in the senate.

Deadlock on Pass Question.

Madison, Wis., March 17.—At the evening session of the senate Thursday to receive committee reports the railroad committee reported for non-concurrence in the forfeiture-of-office amendment added to the anti-pass resolution by the assembly. Both houses appear so firm in the stand they have taken that the resolution will be delayed some time and may even be defeated through this disagreement.

The strongest effort will be made, however, to put the matter through, as the republican party is pledged to such a reform in its platform. After some argument the assembly killed the joint resolution providing for securing the opinion of the supreme court on pending legislation when requested by the governor and two-thirds of each house.

PRESIDENT M'KINLEY PLEASED.

Welcomes the News That the Queen Regent Will Sign Peace Treaty.

Thomasville, Ga., March 17.—The news that the queen regent of Spain would sign the peace treaty ratification was telephoned promptly to President McKinley. He was much gratified at the fact that this last step necessary to the end of hostile relations with Spain was assured, though never doubting such would be the outcome.

Arrangements for exchange of ratification and payment of the \$20,000,000 must still be made, but no action by the president will be needed before he returns to Washington.

It is likely that on Friday night the president will start to Jekyll Island for a day or two. He spent Thursday in a long drive and in resting, expressing himself as already feeling better than when he left Washington.

Triumph for Gen. Gomez.

Havana, March 17.—The Cuban generals Pedro Diaz, Jesus Monteaeggo, Luis Roban, Alberto Nodarse, Francisco Peraza, and Pedro Betancourt, who at a meeting Wednesday declared in favor of Gen. Brazil, Ind., March 17.—The meeting between a select committee of block coal operators and miners to make a final effort to adjust a scale for a year closed sine die without an agreement being reached. Miners insist upon suspension of work at once, and it will be a difficult matter for the officers to induce the men to work longer. The miners are prepared for a hard fight.

Will Not Live Three Months.

London, March 17.—The Rome correspondent of the Daily Telegraph says there is no longer any hope of real cure for the pope. The wound caused by the recent operation does not heal and blood-poisoning is feared. His strength is only maintained by the use of cognac and Marsala wine. It will be a miracle if he lives three months.

AGUINALDO SAID TO BE DISCOURAGED

INSURGENTS REPORTED ON POINT OF CAPITULATING.

Manila Advices Indicate a Crisis May Be Reached at Any Time and That Hostilities Will Cease—President McKinley Has Been Informed of the Situation.

Washington, March 17.—[Special]—Late Manila advices indicate that a crisis may be reached at any time and that hostilities will cease. The insurgents were reported on the point of capitulating. Aguinaldo is known to be greatly encouraged. President McKinley is informed of the situation.

Rebels Re-occupy Taytay.

Manila, March 17.—[Special]—The rebels re-occupy Taytay and have strongly entrenched themselves there. A gunboat shelled Bimangonan, driving the insurgents from the city.

Manila, March 17.—Gen. Wheaton is still actively engaged in clearing the insurgents from the country to the eastward of Manila. Thursday the villages of Cainta and Taytay were captured by troops belonging to his provisional brigade.

The enemy have now been driven from the country between Manila bay and the western shore of Laguna de Bay. Thursday's operations were conducted in the territory northeast of Laguna de Bay.

Only a few of our troops were engaged, the attacking force consisting of companies F, C, L and G of the Twentieth regular infantry, under command of Maj. Rogers.

It is apparent that there is to be no cessation in the attacks on the insurgents, the plan of the military authorities seeming to be to pursue the rebels steadily until they are either destroyed or compelled to submit to American authority.

After being driven out of Pasig, Pateros and Taguig, most of the Filipinos retreated to Cainta, northeast of Pasig, where, there being no immediate pursuit, they stopped and began to entrench themselves.

Maj. Rogers was ordered to advance and drive them from their positions. The Americans moved forward from Pasig, meeting with no opposition until they reached the open fields about a third of a mile from Cainta.

As they appeared in the open the enemy, who were waiting their coming, suddenly began a heavy fire from their trenches, bringing down several of our men. The regulars returned the fire, and then companies F and C were ordered to flank the town from the woods to the church, while companies L and G attacked the enemy's front.

The rebels fought bravely enough, and their marksmanship was somewhat better than usual, but the deadly fire of our troops was too much for them. They held out for three hours and then, following their usual tactics, jumped from their trenches and fled.

Before they abandoned the town, however, they set fire to it. They retreated in a southeasterly direction to Taytay, with our troops in close pursuit.

The Americans soon drove them out of this place and burned the village, after which the four companies returned to Pasig.

There were fully 1,000 rebels at Cainta, while the American force actually engaged was slightly over 800. In addition the rebels were in trenches, while the Americans had to advance over open fields. The losses of the enemy are not definitely known, but are believed to be heavy.

Our troops sustained no losses in the capture of Taytay, but in the engagement prior to the taking of Cainta more men were wounded than in any of the fights that has occurred since Monday, when the forward movement from San Pedro Macati began. Our losses were two killed and twelve wounded.

WAR NEARS ITS END.

President McKinley Believes Aguinaldo's Government Will Fall.

Minneapolis, Minn., March 17.—United States Senator Kyle of South Dakota said here, while en route home, that President McKinley had lately received private advices to the effect that the Filipino republic was on its last legs.

The senator said that he had received this information from sources very near to the president and that the latter anticipated the final collapse of Aguinaldo's government and complete possession by Gen. Otis within a few days.

Trouble in Luzon Only.

Washington, March 17.—The following from Gen. Otis has reached the war department:

Manila, March 16.—Adjutant General, Washington: Reports from Iloilo indicate improvement; less activity on the part of insurgents of islands; reports from Negros most encouraging; inhabitants enthusiastic; quiet prevails throughout island, and Col. Smith directing affairs in framing internal government. Cebu quiet, business progressing under United States protection; reports from Samar and Leyte indicate desire of inhabitants for United States troops; these islands occupied.

insurgents' control confined to Luzon, and the occupation of the Pasig river line, with control of Laguna de Bay, has cut the country occupied by the Tagalos in nearly two equal parts.

"Otis."

One Beauty.

"These resolutions are convenient things."

"Yes, they are. You can break 'em all with the satisfaction of knowing that you can make a lot more just as good."—Syracuse Herald.

Overdid It.

"I wonder if Johnson hadn't heard that story before?" "What makes you think so?" "He laughed so heartily."—Indianapolis Journal.

JOTS FROM LINE CITY

A Former Resident of Beloit Dies in Nebraska—Rev. Denison to Give a Lecture.

Beloit, Wis., March 17.—[Special]—Mr. A. M. Turner yesterday received a message from his sister, Mrs. Park, in Nebraska, announcing the death at her home of their sister, Mary, wife of the late City Marshal North of this city. Mrs. North is the mother of Ray North, who at one time was turnkey at the Janesville jail. Ray was with his mother at Nebraska and will bring the remains to Beloit.

The Rev. Robert C. Denison, pastor of the Janesville Congregational church, will give an illustrated lecture on Rome at the Second Congregational church tonight.

The college base ball team's schedule for the year is complete and will be as follows: April 18, Michigan at Beloit; April 22, Northwestern at Beloit; April 29, Wisconsin at Madison; May 3, Indiana University at Beloit, not decided; May 6, Northwestern at Evanston; May 12, Illinois at Beloit; May 20, Wisconsin at Beloit; May 27, Oberlin at Beloit; May 29, Purdue at Beloit; June 1, Michigan at Ann Arbor; June 2, Oberlin at Oberlin; June 3, Purdue at Lafayette; June 3, Chicago at Chicago.

As was thought, Mr. Thornton will not be Beloit's coach this year and it is a great disappointment to the team. Mr. Thornton's physicians have persuaded him to go to Colorado, as his health is very poor. The team will continue practice under Captain McMaster. Beloit college has a real live professor—at least his pupils call him so—in the senior class, Edmund Enright, of Janesville, holds down the chairs of physics, chemistry and botany in the Delavan High school. He goes over every noon and comes back every evening. Meantime he keeps up his college work by judicious use of his morning hours. It keeps him hustling.

THE POPE'S CONDITION

Generally Feared That His Recent Illness Is the Beginning of The End.

Rome, March 17.—[Special]—Although the pope has rallied from his extreme weakness of two days ago, his vitality is gradually diminishing. It is feared generally that his recent illness is the beginning of the end. His holiness, however, remains very cheerful. He is eager to resume his regular duties.

There to Stay.

The laying of the foundation stone of the Gordon College in the Sudan is an indication of the practical character of British colonization, which unites piety for Gordon's memory and anxiety for necessary and useful work with the thorough assurance of the conquerors of territory. The Sudan has been delivered from the dominion of the cruel Bagaras, a fact which will be of immense importance for the growth of the new province. The laying of the foundation stone also signifies that the English established themselves in the Sudan with the intention of remaining there.—Berlin-National Zeitung.

Sweet Are the Mosses of Adversity.

One of the many useful things which absolute privation has been the means of making known to the world is Irish moss. The poor inhabitants of the Irish coast were driven to its use by the pangs of hunger. When boiled it produces a thick, nourishing and not unpalatable jelly. It is most beneficial for diseases of the throat and lungs.

The Blessings of War.

"This here last war," remarked the old lady, "has been a blessing to my family; John's drawin' a big pension for one year an' three fingers; the ole man's writin' a war history; Moll's engaged to a sergeant, an' Jennie's gwine to marry a feller that come within an ace of bein' a gin'rul."

Summer and Winter Clouds.

Many must have noticed that in winter time the sky seems to lack the roominess and lofty arching of summer. It appears on cloudy, or partially cloudy, days to be nearer the earth than is the case on similar days during the summer months. That this appearance is no figment of the imagination is shown by recent investigations made at the Upsala observatory on the elevation of clouds. It is found that all varieties of clouds float at a much greater altitude in summer than in winter. The months of greatest elevation, at least in Sweden, are June and July.

Rabbit Shooting Extraordinary.

In a book just published in London, the author, Mr. Harding, awards to Lord de Grey the honor of holding the individual record for a good day's rabbit-shooting. In 1883, when a party of nine guns killed 2,684 rabbits, Lord de Grey accounted for the enormous total of 920. Next to him comes the late Sir Victor Brooke with a score of 740 in a day to his single gun. He used exactly 1,000 cartridges, and fired for one-half of the day from his right, during the other from his left shoulder. Beside these Titanic efforts others are dwarfed. Mr. Charles Eley and a friend shot 900 between them in a forty-acre warren in 1893, and in a great day at Lord Stanford's seat in Leicestershire, Bradgate Park, a party of thirteen shot 3,333.

WITHOUT PREVIOUS RATIFICATION BY THE CORTES.

Was to Exercise Her Royal Prerogative—A Step Taken at the Urgent Request of the New Ministry. Diplomatic Relations Will Be Resumed.

Madrid, March 17.—[Special]—The Queen Regent signed the peace treaty today. The signing of the treaty without a previous ratification by the cortes was to exercise her royal prerogative, a step taken at the urgent request of the new ministry. With the treaty signed, diplomatic relations with the United States will be resumed and when the cortes again assembles Spain will have assumed her old position as regards to foreign relations.

IN A POLITICAL FRAY

TROOPS AT LAKE CITY

Will Start For Henshaw and Demand the Surrender of the Italian Rioters.

Lake City, Col., March 17.—[Special]—Trains conveying troops arrived here this morning. The troops will probably start for Henshaw this afternoon and demand the surrender of the Italian rioters. If they don't comply a battle is sure to follow.

FORECAST OF WEATHER

Chicago, March 17.—[Special]—Forecast for Wisconsin: Threatening tonight, Saturday rain.

Wedded After Thirty Years.

Many years ago Mary Keefe of Chamberlain, Pa., had a sweetheart. He was a Keefe, too, his surname being James. The relationship, if any, was distant. Mr. Keefe went west, where in time he prospered, and grew popular with the political powers in Carroll county, Illinois. He married and so did his old sweetheart. A year ago both lost their life mates. Mr. Keefe is now steward of the Carroll county (Illinois) almshouse. The directors decided that their steward must be married. Learning through relatives that his former sweetheart had lost her husband, he wrote and asked her to be his wife. She bade him come on, and the ceremony took place in the parlor of the little hotel, of which the bride's first husband, Albert Besore, had been proprietor.

Met with a Shotgun.

George Pitman and Miss Jennie Smith of Albany, Ky., eloped to Tennessee and were married. On their return they were met by the bride's father, who, instead of granting forgiveness, made hostile demonstrations with a double-barreled shotgun. He demanded his daughter, but the happy pair escaped into the house, which they proceeded to barricade. Thereupon Smith turned both barrels loose on the door. A few shot hit the groom. Smith was arrested and gave bond for his appearance.

Little, but Oh My!

Frederick E. Burch, aged 38, of Prescott, Mich., is probably the smallest man in the state. He weighs 69 pounds and stands 4 feet 3 inches, and is employed by C. H. Prescott & Sons in their lumber camp. He performs as much manual labor as the largest and heaviest man in camp, with either ax, canthook, or saw. He is married to a woman who weighs 164 pounds, and he is the father of four children, the youngest of whom is 10 years old and weighs 85 pounds.

West Porter

West Porter, March 17—The whist party last week was at Mr. and Mrs. Frank Bullard's. It was to be at C. M. Davis' this week but was postponed until next week on account of the roads. A number attended the farewell party at Henry Apfel's last Friday night. Mr. Apfel and family expect to make Evansville their future home soon. Wm. Stevens, of Evansville, recently purchased their farm and Michael Holden is going to move onto it as soon as Mr. Apfel moves. Owing to bad weather and bad roads there were only about fifty in attendance at the dance at the Porter band hall last Friday evening. Leaver's orchestra was to furnish music,

but they didn't come. W. M. Tolles, the manager, received word from Mr. Leaver afterwards that the roads and weather were so bad, was the reason why they didn't come. Leaver's orchestra failing to come they got Smart's orchestra and dancing began after this delay. Those who were present report a good time. There is to be a dance there tonight, March 17. Smart's orchestra is to furnish music. Invitations are out for the marriage of Benjamin Towne to Miss Sarah Peach, which is to take place March 16, '99. Miss Mae Pierce spent Saturday and Sunday at W. M. Tolles'. Miss Beitha Barnard, of Evansville, visited at Dan Roger's last week.

Clinton

Clinton, March 17—We are indebted to Mrs. Estella Stowe Myers, of Hilo, Hawaii, for a late copy of The Hawaii Herald, which is highly interesting and shows that the people of that island are wide awake to enterprise and alive to their needs of congressional appropriations. According to a tourist's impressions of our distant possession, as given in the Herald, Hilo is the most ideal winter resort in the world. Mrs. Myers is well known here, where she spent her early days. She has resided in Hilo several years and speaks in glowing terms of its many attractions. Mrs. M. A. Patchen left last Friday afternoon for a visit with her daughter at Harvard. The Chicago Times-Herald man was in town Monday and left a generous supply of papers for public inspection. Dr. Olney P. B. Wright was granted a pension recently. And now our police justice has come in to disfavor with the people for the crime of adhering strictly to the letter of the law. It is claimed that he has violated his oath of office. The non-payment of fines imposed on some of the Saturday night disturbers of the peace, indicates that they expect to serve out sentence at the county jail. "Water seeks its level," but it seeks in vain on West Milwaukee street, where indignant property owners still continue to "hold it up" in the highway. For the good of the public it ought to be provided an outlet. Mrs. M. A. Colby is thinking of engaging in the restaurant business here again. Morris Woodard has been home lately. Mrs. Will Davidson visited friends here last week. Mrs. Kate Kennedy Titus of Watford, has a young son, it is said. The milk handlers say that the roads are worse in town than in the country. One man who broke down near the factory, on Wednesday, thinks that it is about time the village made improvements in that locality, especially as there is a big pile of stone for road use just over the fence. The Boy's Definition

"A lie," said the boy, "is an abomination to the Lord, but a very present help in time of trouble," which suggests the following, received from the boy's mother, and a well known lady of Chicago: "I wish every mother could know the 'very present help in time of trouble' which I have found in 'Orangeine' for my little ones. I use 'half-powders,' and many a cold, headache, earache and bilious attack have I averted by its prompt application. I find 'Orangeine' often better for children than a dose of castor oil."

STUDENTS CHEER BREWER

Janesville Boy Given Hearty Welcome on Arriving at Albion.

The Detroit News-Tribune in speaking of the arrival of Chester L. Brewer, of this city, at Albion, Mich., says: "The arrival of the long-looked-for physical director and coach, Chester L. Brewer, of Wisconsin, has given new life and spirit to college athletics. Although Mr. Brewer has been here but a few days he has already sized up the situation and has taken hold of Albion

is very encouraging to all the athletes and athletic patrons of the college. Mr. Brewer came Tuesday afternoon and was met at the Michigan Central depot by a large crowd of cheering students. Wednesday morning he was present at chapel and the students cheered him enthusiastically. In accordance with his request, read by President Ashley during chapel, the members of all athletic teams and candidates for them as well, met him during the day to agree on arrangements for training, to begin at once. Thursday morning Mr. Brewer occupied a seat on the platform with the faculty during chapel and was again vociferously applauded. He has already begun work with the baseball men, and they are unanimous in their praise for his methods.

CARD FROM THE MAYOR

Mr. Thoroughgood Is Willing to Accept the Decision of His Friends.

To the electors of the City of Janesville: Gentlemen—The time for a change of municipal officers being near at hand, I feel it a duty to my many friends to state my position in the matter, thereby setting at rest the many inquiries to which I have been, until now, unable to answer fully.

I will say, if I study my own interests financially and consider the amount of time I have given to the office of mayor, I ought to retire. If there has been any honor connected with the office, I have had my full share. How deserving I am of that honor I will leave to those who know me to determine. I will not ask a re-nomination, but if my friends, irrespective of party, feel well disposed toward me, I am at their service; and whether elected or not, I shall still be the same Thoroughgood, always having the best interests of Janesville in mind, and every voter, rich or poor, of whatever creed or nationality, being the same to me if a good citizen.

JOHN THOROUGHGOOD,
Mayor.

EMPTIED THEIR EXCHEQUER

Soldiers' Aid Society Disposed of Cash They Had on Hand.

At a meeting of the former members of the Soldiers' Aid society held yesterday afternoon at W. H. Sargent Post hall, the thirty-four dollars remaining in the treasury was disposed of as follows:

Ten dollars was given to the W. H. Sargent Woman's Relief Corps No. 21, Auxiliary to W. H. Sargent Post No. 20, G. A. R., for the reason that the Corps had donated that amount to the Soldiers' Aid society; ten dollars was voted to the School Art Auxiliary, and the remaining fourteen dollars will be taken to procure copies of the roster of Co. A, one to be presented to the High school and one to the free public library, also one to each surviving member of the company and the families of the soldiers who have died.

The society exercised good judgment in the disposition of the funds.

ARBOR AND BIRD DAY, MAY 12

Gov. Scofield Issues a Proclamation For Its Observance.

Gov. Scofield has issued a proclamation designating Friday, May 12, to be Arbor and Bird Day. Following the formal designation he says:

The practice of planting shrubs and trees in school grounds and in public parks, and in cultivating interest in bird life in the observance of the day, have shown such beneficial results in the beautifying of the public grounds and the preservation of our native song-birds that it seems highly desirable to encourage, by all means possible, interest in the day.

I recommend, therefore, that the public schools, colleges and educational institutions of the state, generally take steps for an appropriate observance of that day, and that every effort possible be made to awaken a deeper interest in the purpose for which the day is set apart.

OF JOSEPH MEDILL.
Editor Passes Away at San Antonio, Texas.
PORT FAILURE THE CAUSE.
End Comes Suddenly, but Not Unexpectedly—Sketch of His Career—Priceless Services Rendered to the Nation During the Civil War.

Chicago, March 17.—Joseph Medill, editor-in-chief of the Chicago Tribune, died suddenly at San Antonio, Tex., Thursday morning. The immediate cause of his death was heart failure.

JOSEPH MEDILL.
although for two years past the ailments of old age had caused him great suffering and sapped his strength. He was almost 76 years of age.
Mr. Medill was conscious up to the moment of death, which he met with calm placidity.
It will be several days before the body is brought to Chicago and all funeral arrangements are held in abeyance. The burial will be at Rosehill.

Sketch of Mr. Medill.
Joseph Medill was born in St. John, N. B., April 8, 1823. His father was a native of the north of Ireland and emigrated from a village near Belfast to the British colonies along the north Atlantic. Joseph Medill was eight years old when his father purchased a small farm in Stark county, Ohio, near Massillon, and his lot was that of the farmer boy. The family later moved to Pike county. From Pike county farm a wider horizon opened before the boy in an opportunity to spend two years in the academy at Massillon. In 1844 he became a lawyer. He had a few hundred dollars and strong self-reliance. To one of his age, full of the controversial spirit of the day, there was but one gateway to the future—the law. He began his studies at Canton, Ohio, and was admitted to the bar in 1846. He began the practice of law at Canal Dover. Young Medill was not content to wait for clients and slowly climb the legal ladder to fame. His heart burned with the fires of the day. His vigorous pen was busy and newspapers sought his communications. He went on the lecture platform, and in village hall, country church and rural schoolhouse he poured out his intense convictions.
The following year he went to New Philadelphia, Ohio, and for two years was a law partner of G. W. McIlvaine, afterward chief justice of Ohio. The law, with its precedents and its drudgery of preparing briefs, was a heavy yoke upon the young man, whose active mind was impatient of restraint and longed for the field of discussion and the intellectual combat that was hurrying the nation toward its crisis. One day he left the law office and bought the Coshocton Whig, a paper in an adjoining county.
On taking charge of his paper he at once began writing and printing strong articles, advocating an organized revolt against the domination of the southern whigs in the party. To still further emphasize his radical views he changed the name of his paper to that of Republican. Hence the justice of his claim to have been one of the earliest pioneers of the republican party.
After two years he went to Cleveland, Ohio, and there started the Forest City newspaper, which he conducted with much vigor, and for that time, much enterprise. In the presidential election of 1861 he supported the whig nominee, but scorned the pro-slavery platform upon which Gov. Scott was made to stand.
After the defeat of the whigs in that election Mr. Medill began in his journal an agitation for the union of the anti-slavery elements in both the whig and the democratic parties with the free soilers, under the name of the national republican party. That he might have a larger constituency to address than his own paper singly afforded him he now effected a consolidation of the Forest City with the Cleveland free soil daily, the Free Democrat, that was edited by a South Carolina abolitionist, John C. Vaughn, who had previously made a reputation on the Emancipator at Louisville, Ky., and on the Cincinnati Gazette. The consolidated papers appeared under the name of the Leader, and thus was started the Cleveland Leader, which continues to this day. In 1865 he sold his interest in the Leader and came to Chicago, still seeking a larger field.
The Tribune of Chicago, established in 1847 as an evening paper, was controlled by Timothy Wright, Harry Fowler and Gen. Joseph D. Webster. June 18, 1865, Mr. Medill bought out Fowler's interest, and the firm was known as Wright, Medill & Co. He at once took charge of the editorial policy of the paper. He headed the movement that ended in the nomination of Fremont as its first presidential candidate. Abraham Lincoln was then a growing power in Illinois politics, and between him and Mr. Medill a strong attachment sprang up, which continued till the death of Mr. Lin-

coln. In 1868 the Tribune absorbed the Press, and the personnel of the proprietorship of the consolidated papers underwent a change.
The great debates of Lincoln and Douglas were reported for the Tribune in full, and it was considered the greatest feat of American journalism up to that time.
It was Mr. Medill who early saw in Abraham Lincoln those great qualities which the world now extols. The debates with Douglas had brought Lincoln into great prominence in the country, and Mr. Medill saw in him the one man above all others who was qualified to carry the party standard into the thick of a presidential battle. It was Mr. Medill, with the purpose of securing the nomination of Mr. Lincoln, who succeeded in having the republican nominating convention held in Chicago in 1860. He sustained the president during the civil war. He saw with clearness the inevitable result of the war, and prepared the people of the northwest for the announcement of the emancipation proclamation. With the peace element fighting the re-election of Mr. Lincoln, and the probability of their success admitted, it was Mr. Medill who demanded the right of the soldier in the field to cast his ballot. With his accustomed energy he prevailed upon the governors of Illinois, Wisconsin and Michigan to call a convention, which resulted in the northern states granting the right of suffrage to the soldiers, and Mr. Lincoln was triumphantly re-elected.
In 1866, Horace White, who was one of the editorial writers of the Tribune—the name of the Press having been dropped in 1860 from the paper's title—secured control of the stock of the paper and assumed the editor-in-chiefship. Mr. Medill retired from the direction of the paper, though retaining his stock. In 1874 he secured a controlling interest, which he held to his death, and resumed the practical direction of the paper.
In the spring of 1872 he was elected mayor of Chicago. During his term he established the public library of Chicago, and within a few months of the expiration of his term, worn out by its exacting duties, he went to Europe for rest.
He was in accord with his party on national questions, except that in later years he opposed a prohibitory tariff, though always supporting the party's nominee. He was foremost in demanding war with Spain and in the questions that grew out of the war he ranged himself on the side of the president. He never sought public office nor favor on account of the great influence he wielded as an editor and publisher.

Action at Springfield.
Springfield, Ill., March 17.—Lawrence Y. Sherman, speaker of the house of representatives, prepared resolutions of respect to the memory of Joseph Medill. Mr. Sherman designated David E. Shanahan, of Cook, who was one of Mr. Medill's personal friends, to present the resolutions in the house today, and they were adopted by a rising vote.
"Dad says to tell you that it helped him in five minutes. The people here are all nearly wild for it, because 'Orangeine' cured 'Dad' so well." ("Dad" is Mr. David Womer, Jamestown, Pa., a sufferer from rheumatism ten years.)

CHEATED OUT OF THEIR LANDS
Indian Commission Gains Its Point by Shameful Tactics.
I was present at a reservation in the Indian territory when a commission was negotiating with the Indians to induce them to take their lands in severalty and to sell the surplus. The commissioners made no secret of the fact that the administration had urged them to carry through the sale, because at the next election they wished to go before the people with the statement that they had thrown open to settlement by the public a certain number of acres of Indian reservations. This statement would influence many votes in the West; it would be a good political cry.
The negotiations began, and by persuasion, promises and at last by threats, about one-third of the Indians were induced to sign the agreement. After that signatures came in very slowly. The commissioners hired their interpreters to assist them to obtain signers. The attorneys, who claimed that they had been retained by the Indians to defend their rights, worked hard to induce the people to sign. These attorneys were working on a contingent fee—"the usual 10 per cent for collection"—and of course would receive nothing unless the treaty went through and the sale was made.
Indians who were corrupt were hired, I was told, to vote more than once, signing first the name at which they went at the time, then the name which they had borne earlier in life, and later perhaps some still earlier name. The names of absent schoolboys were added to the list on the mere statement by some Indian that they were in favor of the sale. So, by cajoling, promising, bribing, browbeating, bullying and using illegal votes the sale, which was bitterly opposed by one-half the tribe, was at last carried through by a bare majority.—Ex.

Asks Day for Admiral Dewey.
Harrisburg, Pa., March 17.—A resolution was adopted in the house Thursday requesting Gov. Stone to name Monday, May 1, 1890, as "Dewey day," and designate the same as a legal holiday.
"After five days of a severe cold three 'Orangeine' powders cured me."

The suffering and agony endured by the unfortunate person who is deprived of his sleep, can only be appreciated by those to whom a merciless fate has brought the same experience. To lie in bed, minute after minute, hour after hour, night after night, unable to close an eye! To roll and toss and thrash the bed clothes—to walk the floor—back and forth, to and fro, wishing, longing for, praying for sleep to come and close the blood shot eyes, and rest the weary brain. To look ahead and see looming up in the near future the horrible spectre of insanity—that awful state in which a person is lost to himself and to his friends forever—those are but a part of the agonies endured by the sleepless one. For all of which there is no better, safer or surer remedy known to man than Dr. Miles' Restorative Nervine. Nothing in the past has ever equaled it in power of building up weakened nerve tissues and giving strength to the tired body. It searches out the weak parts and gives them new life and vigor.

Not a Pingree Movement.
Lansing, Mich., March 17.—Gov. Pingree says that early in January he received a letter from Mayor Jones of Toledo requesting the use of his name as one of a committee of fifty to call a conference of men and women of various political and social beliefs to consider the present condition of American politics and economics. Mayor Jones was informed that he could exercise his judgment in the matter, and the governor says he gave it no further thought. When the story relating to the formation of a new political party was published, as the result of a call by Gov. Pingree, the latter said he knew nothing whatever about it, having forgotten Mayor Jones' request and his reply. He says he has no intention of assisting in the organization of a new political party.

Sweet Sleep

After Long Nights of Tossing and Torture. I was Tired but Could Not Rest. Could get no relief until I took.

Dr. Miles' Nervine.

"I have had a great deal of nervous trouble, suffering both with stomach and head. The least change of weather or of diet would affect me. Being a member of our orchestra I was kept up late at night until I was attacked by nervous headache and suffering terribly. I have laid awake hours upon hours at a time, unable to get rest. Have tried many other remedies and several physicians treated me, but I never could get relief until I took Dr. Miles' Restorative Nervine. That great remedy completely restored me to health."
Dr. M. O. Burkholder, Staunton, Va., says: "I am more than pleased with the results of my trial of Dr. Miles' Nervine in cases of extreme nervous debility. In one case nothing else had availed. It is the best nerve remedy I have found in low conditions attended with insomnia. The patient is soothed, and, as if by magic, starts on an upward movement rapidly. In LaGrippe convalescence it is the very thing we want as this peculiar disease seems to attack principally the nerve centers. I recommend it constantly."
"Both my wife and myself received untold benefits from the use of Dr. Miles' Restorative Nervine. Sleeplessness was her trouble which was complicated with a nervous affection of the heart which gave her great uneasiness."

My difficulty was of longer standing—weak kidneys, disordered stomach and inability to sleep. I also suffered a great deal from neuralgia in my head and back. After we began taking Restorative Nervine all these nervous afflictions disappeared and we are both enjoying better health than for several years before. I should not fail to mention Dr. Miles' Nerve and Liver Pills which we have used with gratifying results. We keep them in the house at all times and find them the best preventive of headaches and nervousness that we ever used."
REV. G. A. HETTER,
210 E. Mason St., Jackson, Mich.
Dr. Miles' Nervine will positively cure headaches of long standing, and it is exceedingly beneficial in such troubles as epilepsy and hysteria.

SIGNS ON THE FARM.

The Madison Democrat commends Assemblyman Morgan's bill to give a road-tax rebate of \$1 to every farmer who will so place a sign that passers on the highway may know who occupies the place as one meriting favorable consideration. All classes of people passing through country districts, whether on business or pleasure bent, are greatly interested to know who lives here, there or the other place. A little sign, containing the farmer's name and cost—ing not more than 50 cents or one dollar, nailed to the gate post in front of the house, to the barn or other buildings or to the fence on the highway—much as streets are named in cities—would afford the necessary information and in very many cases greatly subserve the convenience of the passer-by. There is no one but who will appreciate the desirability of such an arrangement. The Morgan bill is in no wise compulsory. If it becomes a law, a farmer may do just as he pleases about putting up his name; but if he chooses to take the trouble to do so he will obtain his reward in a road tax lessened by one dollar for that once. It is probable that not so many signs would be put up in any one year as to materially reduce the volume of the road tax for that year, hence no reasonable objection can lie against the proposition on that account, and on no other ground can it possibly be antagonized. A similar law is now in force with relation to watering troughs. Farmers who maintain them at the roadside are entitled to an annual rebate of five dollars on their road tax. That statute is of course highly popular. The other, while hardly as practical a nature, could scarcely fail to be also.

LEAVE GAME LAWS ALONE.

The last general hearing on the proposed fish and game law has been had, and the measure will soon come up for passage. If the legislature does the right thing, it will kill the bill. The present law covers the case nicely, and should be left on the statute books intact. It does not favor the city sportsman at the expense of the farmer—which

the proposed law does—and all inequalities have been smoothed out by the revisors, so that the law will stand in court. The legislature should therefore keep its hands off, and let well enough alone.

The present law can only be improved, from the theoretical standpoint, in one respect—a provision to prevent the marketings of game. In this respect, as Janesville sportsmen understand the bill, the proposed law is no better than the one now in force. The new measure will afford no more protection to game than is given under the present law, and as it is the patchwork composite of some thirty or forty bills, it is very liable to be vague or irregular in some vital provision.

"Hands off, gentlemen, let well enough alone," expresses the sentiment of a large majority of the people of Rock county who like to hunt and fish, and it is to be hoped that the legislature will see the matter in this light.

PUT BEST MEN ON GUARD

All republicans should attend the party caucuses, and support the candidates best fitted for the various offices to which they aspire. The management of city affairs will be placed for the next two years at this spring's election, and too much care cannot be exercised in selecting the man for the trust. A large amount of money is paid out by the people, and economy and thrift should be the rule. The republican party has yet to cope, unsuccessfully, with any governmental problem, but Janesville is a splendid city and the best minds in the population are none too able for the places of honor. By putting the very best men on guard, the interests of the people will be best subserved, so attend the caucuses and do your duty as citizen and patriot.

Many people will be glad to hear that ex-Governor George W. Peck plans to revive the paper that he made famous—Peck's Sun. The humor that the genial ex-governor gave the world has lived for many years, and will live for many years to come. It has the right turn to it, and has caused many a smile. And are not smiles the flowers that brighten life's dull pathway? By all means, let Peck's Sun be revived, and may it be even more popular than it was before the people called its editor to the state capital.

Many buildings will be erected in Milwaukee this spring, and the value of edifices contracted for this year already exceeds the figures of 1898 by over \$100,000. Before the year ends, in all probability 1899's record will exceed that of 1898 by fully a million dollars. Milwaukee is a great and growing city, and her progress is viewed with as much pride throughout the state as it is within the city limits.

General Gomez will ignore the Cuban assembly, and disband his army as he agreed. Public sentiment supports Gomez, and it is thought the assembly will die a natural death.

The Watertown council, after a long debate, has decided not to buy the electric lighting plant that illuminates the city.

A bicycle combine is now projected but its tire may be punctured before the riding season opens, so don't worry.

I hereby announce myself as a candidate for renomination to the office of city clerk at the ensuing republican city convention.

ST. PATRICK'S DAY DULY OBSERVED

SERVICES HELD AT CATHOLIC CHURCH.

Rev. Father Dowling, of Argyle, preached an excellent sermon to a large congregation—Rev. Father McBrade, of Oconomowoc, acted as celebrant.

Patrick's day was duly observed in Janesville today, and wearers of the green were to be seen on all sides.

Bright and early this morning the sons of the "ould sod" donned the shamrock, flinging out the green banner with the golden harp and greeting each other with happy wishes for many returns of the day. There were but few observances of St. Patrick's day in Janesville, however, beyond the special church services at St. Patrick's church this morning and an entertainment in Columbia hall this evening.

At St. Patrick's church this morning at 10 o'clock, services of an impressive nature were held in honor of the day. The sacred edifice was filled, every available seat being occupied. The beautiful altar with lighted candles presented a handsome appearance.

Special music was rendered by the choir of St. Mary's and St. Patrick's churches, assisted by Prof. Smith's full orchestra.

Rev. Father Dowling, of Argyle, preached the sermon, and Rev. Father McBrade, of Oconomowoc, acted as celebrant.

This evening at Columbia hall a very interesting program has been prepared by the Ancient Order of Hibernians, Catholic Order Foresters, Women's Catholic Order Foresters and the Newman Club.

There was no parade today, but throughout the city the little green badges were not found lacking.

Nearly all the badges and shamrock designs are handmade and imported from Ireland. Most of them in Wisconsin are brought over by John Barth, who supplies them to all the dealers in the country towns. Besides the conventional three-leafed shamrock, there are hamrock, cupids, the golden harp on a green field, and the old flag with its quaint design and the slogan, "Erin Go Bragh," which is satisfactory to every Irishman, though few others seem to know what it means.

The noble army of self-supporting women find "Orangeine" a great help in their hours of suffering. Safely stops pain.

THE BLUE RIBBONERS MEET

Members of the League Prefer a Ball By Themselves.

A meeting of the Francis Murphy Temperance League was held last evening at the office of Dr. James Mills.

The meeting was called for the purpose of selecting a hall for holding the regular sessions, arranging for the preparation of a constitution and by laws, and fixing of dues and any other such business as was deemed proper.

The members of the Murphy League thoroughly appreciate the kindness of the Y. M. C. A. in allowing the free use of their building but many of the clubbers of the opinion that were they in a hall by themselves, the attendance at their meetings would be greatly increased.

A committee was appointed consisting of Joseph Denning, John S. Day and mes Riley to look up a suitable place of report at the next meeting.

A committee to draft a constitution and by-laws was appointed, consisting of Rev. E. H. Pence, O. E. Brand, Al Smith, John H. Jones and Dr. James Mills, and submit the same at a meeting to be held at the Rock county Calumet society's rooms on Wednesday evening of next week, at 7:30 o'clock.

A committee was appointed to arrange a program for the next meeting, which will be announced later. The club is doing grand work and membership is constantly increasing.

TELEGRAPH SCHOLAR GIVEN JAIL SENTENCE.

J. S. Harding, of Nebraska, Gets Himself Into Trouble—Wallie Davis Pays a Fifty Dollar Fine This Morning—Civil Action Was Also Disposed of.

J. S. Harding, who makes his home in Nebraska, has been in Janesville during the past few weeks as a student at Valentine Bros' school of telegraphy.

He made fast progress from day to day and was considered an ideal young man.

Yesterday afternoon he made all necessary preparations to leave school and accept a responsible position on the road as operator.

That Harding found it hard work to leave without first securing some souvenir from his school mates is quite evident from the fact that at the close of school yesterday one Frank Schroeder, a student, missed his five dollar overcoat.

He at once informed the police and from evidence secured Officer Brown placed Mr. Harding under arrest.

He at once admitted his guilt and the overcoat was found where concealed by him.

This morning in court, Harding pleaded guilty and was sentenced to pay a fine of thirty dollars and costs or sixty days in jail. Being minus the necessary cash, he went to jail.

The stolen coat was valued at five dollars.

Walter Davis, of this city, was placed under arrest last evening, charged with fornication. This morning when arraigned in court he pleaded guilty and was sentenced to pay a fine of fifty dollars and costs or six months in jail. He secured the money and paid the fine.

black bears, a wild boar, four stags, two antelopes, a small red deer, a hyena and a lynx falling to her gun. In all Mrs. Crofts has seen seventeen tigers killed, and innumerable panthers, bears and crocodiles. One of her unique experiences was the shooting of two large tigers out of a steam launch in the Cambal river, Kotah.

Mrs. Crofts is as well an accomplished tennis and golf player, and has won many prizes in tournaments.

ROCKFORD DEFEATED AGAIN

Janesville Boys Carry Off the Laurels of the Game.

The result of the basket ball game played at the Rockford Y. M. C. A. gymnasium between the Rockford and Janesville teams, resulted in another victory for the Bower City boys, the score being 73 to 12.

It is said the Forest City boys were after "sweet revenge." Unfortunately for them, they got it—in the necks.

Last Monday evening, the Rockford team was defeated by the local team at their gymnasium very easily, but evidently, the visitors could not see it in that light and arranged for the return game of last evening, in hopes that a game in "our back alley" might materially change the complication of things, but the score of 73 to 12 in Janesville's favor tells the whole story.

The local team was made up of the following players: Boyd Nott, Frank Kimball, Len Mathews, Roy Palmer and Fred Palmer.

Rockford Wins Indoor Ball Game.
The local Y. M. C. A. boys were not "the whole thing," however, and lost the indoor base ball game, the score being 25 to 19, which was very close, and made a more entertaining game, and would have been entirely satisfactory to the Janesville followers had the figures only been reversed; but the overwhelming defeat of Rockford in the basket ball game, causes the Bower City boys to wear smiles of satisfaction.

The indoor base ball team from this city was composed of Boyd Nott, Len Mathews, Roy Palmer, Fred Palmer, Fred Smith, Ross Bump, Farmer, Keltz, Rudolph.

Secretary J. C. Kline and Physical Director Rudolph accompanied the teams on their trip. They returned this morning.

TOBACCO BUYERS ARE VERY ACTIVE

NINETY PER CENT OF CROPS PURCHASED.

Transactions in the Leaf Line During the Past Week Have Been Going on at a Merry Clip—Soverhill & Porter Sell Good Sized Shipment.

The close of the buying of the '98 crop is not so far away as many might suppose, for the activity of the buyers who are still in the field, promises soon to clean the growing districts much closer than any crop heretofore grown in some years, says The Wisconsin Tobacco Reporter.

When fully 90 per cent of a crop is bought up, as buyers now claim it to be, it is a short matter usually to gather in the remnants not in the hands of the confirmed holders. And the wind up bids fair to be a lively chase, too, for the aggregate transactions of the past week will doubtless equal nearly as much as any of the previous cases. It scarcely need be added under such conditions that prices continue well up to the limit.

There seems to be a strong demand for old well-cured "shorts" or anything in the filler line, and some moderate sized sales have been effected. Soverhill & Porter, of Janesville, have disposed of a 150-case lot, and McIntosh Bros. 320 cases of these goods.

The deliveries of the new crop continue large, the growers being anxious to bring in their crops before the annual spring break up of the country roads.

The shipments out of storage reach 1100 cases, 22 cars, from this station to all points for the week. The shipments in of new leaf reach 93 cars for the same period. Since last report 16000s of cigar leaf were expected from New York.

FIVE DIE IN A STREET RIOT.

Election at Hot Springs, Ark., Results in Bloodshed.

POLICE OFFICERS TAKE PART.

The Chief, a Detective, Sheriff's Son, and a Sergeant Are Dead—City Now Patrolled by Forty Newly Appointed Custodians of the Law.

Hot Springs, Ark., March 17.—Five men lie dead and a sixth is at death's door as a result of a shooting affray which occurred at 5:30 Thursday afternoon. The dead are:

TOLER, THOMAS, chief of police.
HART, J. E., city detective.
GOSLEE, THOMAS F., police sergeant.

WILLIAMS, JOHN O., son of Sheriff Williams.

HINKLE, LOUIS, driver of a beer wagon.

The wounded:

Edward Spear, shot in the neck and may die.

The affray occurred in front of the Babcock Hardware company's store in Central avenue at a time when the street was thronged with people, and it is remarkable that others were not killed or injured.

The origin of the trouble was an encounter between Policeman Goslee and Sheriff Williams, when the former made an unsuccessful attempt to kill the latter, shooting at him three times. Subsequently Goslee and John O. Williams, son of the sheriff, met in the street and the former proposed to let the matter drop. As the two men were in the act of shaking hands some one shot young Williams from behind. This was the signal for hostilities, in which Chief Toler, Policeman Goslee, Detective Hart and Louis Hinkle on the one side, and Coffey Williams and Ed Spear on the other took part. Toler, Goslee, Hinkle and Hart were instantly killed. Spear was shot in the throat by Hinkle, while Coffey Williams escaped unhurt.

Sheriff Williams had no part in the affair, arriving on the scene too late to prevent its occurrence. His son was picked up from the sidewalk, shot through the brain, unconscious, and was taken home, where he died an hour later.

The shooting was the result of feeling growing out of the mayoralty contest, which is under way here.

The mayor immediately after the shooting appointed Judge L. D. Belding chief of police and had a posse of deputies sworn in at once. There is little factional feeling outside of those engaged in the shooting. Order was easily restored, and the city is now quiet.

Bloomington Miners Strike.

Bloomington, Ill., March 17.—The trouble between the miners and the McLean County Coal company has assumed a serious form and the 300 miners have removed their tools and after putting the mine in order will go upon a strike with the determination to stay out until the operators agree to grant the Springfield scale, 58 and 68 cents, with allowance for two feet of brush- ing.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by People's Drug Co.

Battle is Fought in Alaska.

Vancouver, B. C., March 17.—Far in the frozen north, a few miles off the desolate Dalton trail, Canadian and American miners have met in deadly conflict. Four are reported to have been killed outright and a number of others have been seriously wounded. The trouble arose over the possession of a rich placer gold field, 100 Americans attempting to drive fifty Canadians out. Several volleys were fired on each side.

Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving account of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co.

John Sherman Is Better.

St. Pierre, Island of Martinique, March 17.—John Sherman's condition still remains alarming. ILLINOIS LEGISLATURE.

Bill to Reduce Telephone Rates in Chicago is Passed.

Springfield, Ill., March 17.—The house today passed the committee bill fixing the rates for public telephones, by a unanimous vote. The bill as passed fixes the rate for telephones at \$60 for business 'phones and \$80 for residence 'phones.

Among bills reported by the Insurance committee was a committee bill taxing all foreign insurance companies 5 per cent of the premiums on business done in the state. The bill was reported favorably. It was ordered to second reading.

The educational committee also reported a committee bill providing for the establishment and maintenance of truant schools by boards of education in cities of over 100,000 population. The bill provides that truant schools may be established by boards of education only upon a vote of the legal voters of the city.

The committee on agriculture reported favorably on the bill electing the members of the state board of agriculture by a vote of the people.

The bill passed by the senate providing for the organization, regulation and management of surety companies, and demanding that all such deposit a guarantee of \$100,000 with the insurance superintendent, was read a second time and advanced to third reading.

The house adjourned until 9:30 a. m. today.

Senator Evans introduced in the senate, and had advanced to the order of second reading, without reference to a committee, a bill to protect persons and corporations in their cans, firkins, bottles and other containers. The bill is an exact copy of the one now pending in the committee on live stock and dairying, which is being opposed by the junk dealers of Chicago.

Other bills introduced were: Senator Hussman—Providing that the width of tires on wagons carrying 2,000 pounds or over shall be four inches; Senator Hamilton—Providing special relief for raising school funds for the city of Mokenau.

The following bills were passed:

Mr. Baxter's, authorizing boards of library trustees to levy an additional tax of one-half mill for the maintenance of libraries; also his bill providing that when a debt is fraudulently contracted the creditor may secure an attachment at any time; Mr. Evan's, to prevent the fraudulent stamping of gold and silverware; Mr. Baxter's, providing for the appointment of a stenographer for each appellate court.

Adjourned to 9 o'clock this morning.

Rev. E. Edwards, pastor of the English Baptist church at Minersville, Pa., when suffering with rheumatism was advised to try Chamberlain's Pain Balm. He says: "A few applications of this liniment proved of great service to me. It subdued the inflammation and relieved the pain. Should any sufferer profit by giving Pain Balm a trial it will please me." For sale by People's Drug Co.

Horse Nearly Frozen.

One of the oddities of life occurred in Coldwater, Mich., the other day. One afternoon, when the mercury was hovering around the zero mark, a man tied his horse in front of the county jail, which is just opposite the Baptist church. After putting a rather thin blanket on the animal, he left it about 2 o'clock. The intense cold soon made the suffering dumb brute almost frantic. The wife of the sheriff watched it for over two hours, and when her husband came home pleaded to have the horse taken to a barn. This was done, the sheriff thinking it belonged to some owner who was roasting his shins in some saloon. But what was their surprise when the owner, a minister from a near-by town, rushed into the jail office and wanted some one to help him find his horse, which he feared had been stolen. When the preacher learned that his horse had been taken care of because of his neglect, he went and paid for its stabling, hitched up, and drove home.

German Justice.

Frankfort-on-Main Cor. Chicago Record: Justice as discriminating as that of Solomon was meted out by a Frankfort court the other day. A merchant who had gained from a young woman's parents permission to marry her, sued the father for 3,000 marks (\$714) damages for forbidding the marriage, on the ground of ill-health and insufficient income. As it was proved that his health was indeed bad, the court ordered that only 500 marks should be the penalty for the girl's failure to marry within four weeks.

SHOOTS NINE NEGROES.

Georgia Mob's Bloody Work—Victims Accused of Incendiarism.

Palmetto, Ga., March 17.—Four dead negroes lie in Johnson's warehouse. Beside them, groaning in agony, are five of their race, all victims of an assault made by white men of this neighborhood at an early hour Thursday morning. This town has had two incendiary fires since Jan. 1, which have almost destroyed it, and the negroes accused of starting the fires were shot down while begging for mercy, and lie where they fell on the blood-stained floor of the improvised jail.

The citizens are patrolling the main street of the town and dispersing an occasional group of muttering negroes who seem determined to get some kind of revenge for the slaughter.

In the incendiary fires—one on Feb. 22 and the other five days later—fourteen business houses were destroyed. Nine negroes were arrested on suspicion and taken to Johnson's warehouse to await the preliminary trial. Their leader is said to have made a full confession before the shooting took place.

Atlanta, Ga., March 17.—Gov. Chandler has issued a proclamation offering a reward of \$500 "for the apprehension and delivery of the first member of the mob, and a further reward of \$100 for each additional person implicated" in the killing of the four negroes at Palmetto.

To Assess Trust Members.

Indianapolis, Ind., March 17.—In an address to the county assessors of Indiana W. L. Taylor, attorney-general, advised that the assessing officers should secure the names of all the individuals and concerns in the state that are connected financially with trusts and assess them on their trust holdings by ascertaining if possible what each individual or concern receives from the trust and capitalizing it at 6 per cent. The advice was endorsed by members of the state board of tax commissioners and the assessors were instructed to proceed along the lines indicated.

"The Newest."

On the Bridge.

WE ARE PUSHING GOOD FLOUR.

For some time past we have been selling the two best Flours millers could
produce at \$1.00 per sack; against an advancing market most of the time.

Still we have kept the price down to a bargain figure. We have sold and
are selling immense quantities of Flour, not only because the price is low, but also
because these two Flour brands are of such goodness.

**Washburn-Crosby Co.'s
Gold Medal at \$1**
has but few equals; no better.

**Jennison Bros'.
'Very Best', at \$1,**
is a Flour that has never re-
ceived anything but praise
from its users.

**Jennison Bros'.
Hard-to-Beat, 95c,**
is thought by many to equal
many so-called "best patents".

We can not say how long we will continue present prices. We bought
several carloads at just the right time; and such a thing is possible that the market
may advance strongly. In that case our prices will advance. Keep your Flour
well cared for now while the price is in your favor.
